the atlantic in world history 1490 1830 looks at the historical connections between four continents africa europe north america and south america through the lens of atlantic history it shows how the atlantic has been more than just an ocean it has been an important site of circulation and transmission allowing exchanges and interchanges which have profoundly shaped the development of the world divided into four thematic sections trevor burnard s sweeping yet concise narrative covers the period from the voyages of columbus to the new world in the 1490s through to the end of the age of revolutions around 1830 it deals with key topics including the columbian exchange atlantic slavery and abolition war as a global phenomenon the age of revolution religious conversion nation building trade and commerce and intellectual movements such as the enlightenment rather than focusing on the rise of the west burnard stresses the interactive nature of encounters between various parts of the world setting local case studies within his broader interconnected narrative written by a leading historian of atlantic history and including further reading lists images and maps as well as a companion website featuring discussion questions timelines and primary source extracts this is an essential book for students of atlantic and world history

the atlantic has borne witness to major historic events that have drastically shaped humanity with each crossing of its path in this broad and readable book jeremy black takes the reader through its evolution to becoming one of the most important oceans in the world black discusses the importance of the atlantic in relation to world history as well as addressing topics such as those bravest to attempt to cross the ocean before columbus the beginnings of slavery from 1400 1600 the struggle for control between empires in the 1600s the way technology adapted with steamships to telegraph cables the battle of the falkland and the cold war black also touches on the atlantic we know today and the struggles it faces due to urgent global issues including climate change pollution and the trials of the economic rise in the indo pacific world if you have ever yearned to know more about this famed and vital ocean this clear and concise history will be a key read as one of the first of its kind on its evolution to becoming an established world ocean

this reader composed of original essays by leading authors expands the category of the atlantic chronologically spatially and methodologically it firmly places the atlantic within global history and the coverage expands into the nineteenth and twentieth centuries the essays present events that formed the nations and cultures of the atlantic region and show their global roots and how they intertwine with non atlantic communities of the world

as the meeting point between europe colonial america and africa the history of the atlantic world is a constantly shifting arena but one which has been a focus of huge and vibrant debate for many years in over thirty chapters all written by experts in the field the atlantic world takes up these debates and gathers together key original scholarship to provide an authoritative survey of this increasingly popular area of world history the book takes a thematic approach to topics including exploration migration and cultural encounters in the first chapters scholars examine the interactions between groups which converged in the atlantic world such as slaves european migrants and native americans the volume then considers questions such as finance money and commerce in the atlantic world as well as warfare government and religion the collection closes with chapters examining how ideas circulated across and around the atlantic and beyond it presents the atlantic as a shared space in which commodities and ideas were exchanged and traded and examines the impact that these exchanges had on both people and places including an introductory essay from the editors which defines the field and lavishly illustrated with paintings drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history

the colonial heritage and its renewed aftermaths expressed in the inter american experiences of slavery indigeneity dependence and freedom movements to mention only a few aspects form a common ground of experience in the western hemisphere the flow of peoples goods knowledge and finances have promoted interdependence and integration that cut across borders and link the countries of north and south america together the nature of this transversally related and multiply interconnected region can only be captured through a transnational multidisciplinary and comprehensive approach the routledge handbook to the history and society of the americas explores the history and society of the americas placing particular emphasis on collective and intertwined experiences forty four chapters cover a range of concepts and dynamics in the americas from the colonial period until the present century the shared histories and dynamics of inter american relationships are considered through pre hispanic empires colonization european hegemony migration multiculturalism and political and economic interdependences key concepts are selected and explored from different geopolitical

disciplinary and epistemological perspectives highlighting the contested character of key concepts that are usually defined in strict disciplinary terms the handbook provides the basis for a better and deeper understanding of inter american entanglements this multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology political science cultural postcolonial gender literary and globalization studies

contains exhibits related to the investigation of the operations policies and affairs of the u s shipping board and the u s shipping board emergency fleet corp

the bretons are not french the celts are not english and the galicians are not spanish writes barry cunliffe these maritime communities have long looked north and south along the coast not inland to claim a common bond even today the bretons see themselves as distinct from the french but refer to the irish welsh and galicians as their brothers and cousins in facing the ocean barry cunliffe one of the world s most highly regarded authorities on prehistoric europe offers an utterly original way of looking at that continent he argues that the peoples of the atlantic rim of iceland scotland ireland brittany spain portugal and gibraltar all share a cultural identity shaped by the atlantic ocean an identity which stretches back almost ten thousand years these peoples lived at the edge of the world in places called land s end finistere and finisterra and looked out on a bountiful but terrifying expanse of ocean a roiling merciless infinity beyond which there was nothing their profound relationship with the ocean set these communities apart from their inland countryman creating a distinct atlantic culture cunliffe culls the archaeological evidence to illuminate the bonds that developed and intensified between

these isolated communities and helped to maintain a shared and distinctive atlantic identity attractively designed and vibrantly written facing the ocean offers a striking reassessment of a people who have usually been regarded as peripheral to european history it will send shock waves through the history world and will radically change our view of the european past
