student learning outcomes have emerged as a major issue for higher education in terms of accreditation accountability and performance indicators and performance funding student learning outcomes are measurable cognitive psychomotor or affective skills or knowledge acquired which embody the overarching goals of a course or program both course and programs have slos course slos should be aligned with the program slos for the program that the course belongs to this handbook is intended to serve as a resource for faculty staff academic leaders and educational developers engaged in program and course design review and the assessment of program level learning outcomes for program improvement student learning should keep a sharp focus on differences in learning outcomes when studying the relationships between context perceptions and evaluations of context and approaches to learning

this national institute for learning outcomes assessment niloa policy statement outlines the warrant for multiple systematic approaches to obtain evidence of authentic student

achievement the importance of assessing student learning in college has yet to capture the attention of policy makers or the public indeed few outside the academy know what the phrase student learning outcomes assessment means and yet the information outcomes assessment produces when done well is foundational to addressing some of the greatest challenges the country currently faces documenting learning and using that evidence to improve student and institutional performance is a challenging complicated process however since 2008 niloa has been tracking what colleges and universities are doing to document and improve student performance and institutional effectiveness from work in the field niloa has distilled five principles that if enacted in mission relevant ways can spread and accelerate assessment work worthy of the promises colleges and universities make to their students policy makers and the public the five principals outlined are 1 develop specific actionable learning outcomes statements 2 connect learning goals with actual student assignments and work 3 collaborate with the relevant stakeholders beginning with the faculty 4 design assessment approaches that generate actionable evidence about student learning that key stakeholders can understand and use to improve student and institutional performance and 5 focus on improvement and compliance will take care of itself it is no longer beyond the capacity of a college or university to articulate expectations for learning to document student progress toward these expectations and to use the resulting evidence to improve student success doing this job and doing it well is within their grasp

based on extensive literature review this study reports the result of a meta analysis of learning outcome studies and presents an integrated typology of content types and learning outcomes examining the eric database for learning studies conducted from 1992 until 2006 shows that most empirical studies have assessed the learning outcome at lower levels of knowledge and competence only 8 out of 113 cases were assessing learning outcomes at the performance level discussions and implications for hrd and future studies are included contains 4 tables

an ambitious comprehensive reimagining of 21st century higher education improving quality

in american higher education outlines the fundamental concepts and competencies society demands from today s college graduates and provides a vision of the future for students faculty and administrators based on a national multidisciplinary effort to define and measure learning outcomes the measuring college learning project this book identifies essential concepts and competencies for six disciplines these essential concepts and competencies represent efforts towards articulating a consensus among faculty in biology business communication economics history and sociology disciplines that account for nearly 40 percent of undergraduate majors in the united states contributions from thought leaders in higher education including ira katznelson george kuh and carol geary schneider offer expert perspectives and persuasive arguments for the need for greater clarity intentionality and quality in u s higher education college faculty are our best resource for improving the quality of undergraduate education this book offers a path forward based on faculty perspectives nationwide clarify program structure and aims articulate high quality learning goals rigorously measure student progress prioritize higher order competencies and disciplinarily grounded conceptual understandings a culmination of over two years of efforts by faculty and association leaders from six disciplines this book distills the national conversation into a delineated set of fundamental ideas and practices and advocates for the development and use of rigorous assessment tools that are valued by faculty students and society improving quality in american higher education brings faculty voices to the fore of the conversation and offers an insightful look at the state of higher education and a realistic strategy for better serving our students
